Conference on Surface & Coatings : Good Surface – Better Coatings – Best Performance

Day - I : Sessions

- Pretreatment – Advances & New Eco-friendly Technologies in Surface Preparation
- Latest Trends & Technologies - Paints & Coatings
- Latest Technologies in Paint Shop

Day - II : Sessions

- Surface & Coatings Quality : Testing & Instrumentation
- Environment & Safety – Requirement & Best Practices
- Future Trends & Specialty in Coatings
- Advancement in Powder Coating Technology
- Protective Coatings
- Paint Applicator Efficiency
- Advanced Electroplating Finishes

Certification Training Course on “Corrosion, Paints and Coatings for Industry”

Day - I : Sessions

- Process & Techniques – PT & ED
- “Challenges of Operating a Cathodic Electro Deposited Coating Line”
- Paint Sludge Management Systems
- Understand Surface Preparation & Painting Methods

Day - II : Sessions

- Corrosion and its Manifestation - Implication to Industry
- Disposal in Paint & Coating Industry & Environment Protection
- Understand Your Application Equipment
- Design Aspects of Painting and Powder Coating Booths
- Quality & Inspection of Coatings
- Qualification of Painters and Training on Painting

Confederation of Indian Industry

About us

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India's development process. Founded in 1895, India's premier business association has over 8000 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 200,000 enterprises from around 240 national and regional sectoral industry bodies.

CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

The CII theme for 2016-17, Building National Competitiveness, emphasizes Industry's role in partnering Government to accelerate competitiveness across sectors, with sustained global competitiveness as the goal. The focus is on six key enablers: Human Development; Corporate Integrity and Good Citizenship; Ease of Doing Business; Innovation and Technical Capability; Sustainability; and Integration with the World.

With 66 offices, including 9 Centres of Excellence, in India, and 9 overseas offices in Australia, Bahrain, China, Egypt, France, Germany, Singapore, UK, and USA, as well as institutional partnerships with 320 counterpart organizations in 106 countries, CII serves as a reference point for Indian industry and the international business community.
